“I want to thank the guys from the Sand Canyon/ Voodoo Lounge gig. This thing is very live. ALL the way Reminiscent of the electric blues and funk performances, which we have learned to love (laughs), the Hardtails have done it again.” Dave has begun another Adventure which employs his hardcore original flair for horns & harmonica/ bounced off the Hammond. He is careful to maintain his own style while grinding up the overtones, and (still manages to get away with) his launches of the shredding stingers of his heroes.

Active: Paris, France/ Dixiefrog records. New release pending '08! Gigs in Clarksdale, Mississippi, Hollywood, Universal City. LA FILMFEST. Media/ television and feature (film) . Dave said: “OK when you hear the instrumental bag, it will make sense, I love telling these stories, even the one's without words. I am not without my adoration for the formatting of National public radio and our hard workin' college newscasters.”
